Dare To Be Different — Why Being Unique Matters!

Our program focuses on building self-esteem and self-confidence because we understand that the young girls in our program are truly one of a kind and we strive to embrace that through our workshops, seminars, and activities. Our tag line is: **BE You. Just BE!** They are unique, gifted, and special individuals. So, we celebrate the special uniqueness within, and encourage them not to worry about what others think. We discuss life experiences and how thus far it has made them the individuals they are today. The girls are finding their way through this journey and having a blast with discovering who they are. Yes, there is much more work to be done, but together they will see this journey to the end.

#JLHFundGrantee *Class of 2022*

BNURD'E Inc. has been selected as a JLH Social Impact Fund grantee! It's been our mission to empower the future generation of girls and young women of color by creating opportunities for them to use the POWER in their voices to lead the way to be the change they want to see. Thanks to the @JLHFund we will make huge strides towards accomplishing our goal. We are thrilled to join the #JLHFundfamily and can't wait to see what's in store for us. Support the JLH Fund and become a part of #Team21 here: www.jlhfund.org

LOS ANGELES NONPROFITS

BNURD'E Inc. Making a Difference

BNURD'E Inc., partnered with **BUILDING HOPE PROJECT** founded by **David Curtiss** a local Los Angeles high school sophomore, who took a trip to Uganda over the summer on a volunteer trip. What he thought would be a typical experience turned into a lifelong commitment to seeing children, all over the world, receive access to a quality education to become local, national, and world-changing leaders.

The seed of his hope turned into the Building Hope Project, a student sponsorship program that keeps high-need primary school students in the classroom by covering all tuition and school fees, providing uniforms, and ensuring two meals a day to successfully complete their primary education, located at Kiira Primary School. The girls and young women of Bnurde wanted to do a community service project to give back to those less fortunate. The mentors, parents, and girls donated items to create 100 Hygiene Bags and wrote personal notes to place in each bag for the girls at Kiira Primary School to read. The Curtiss Family left for Uganda May 23, 2022.

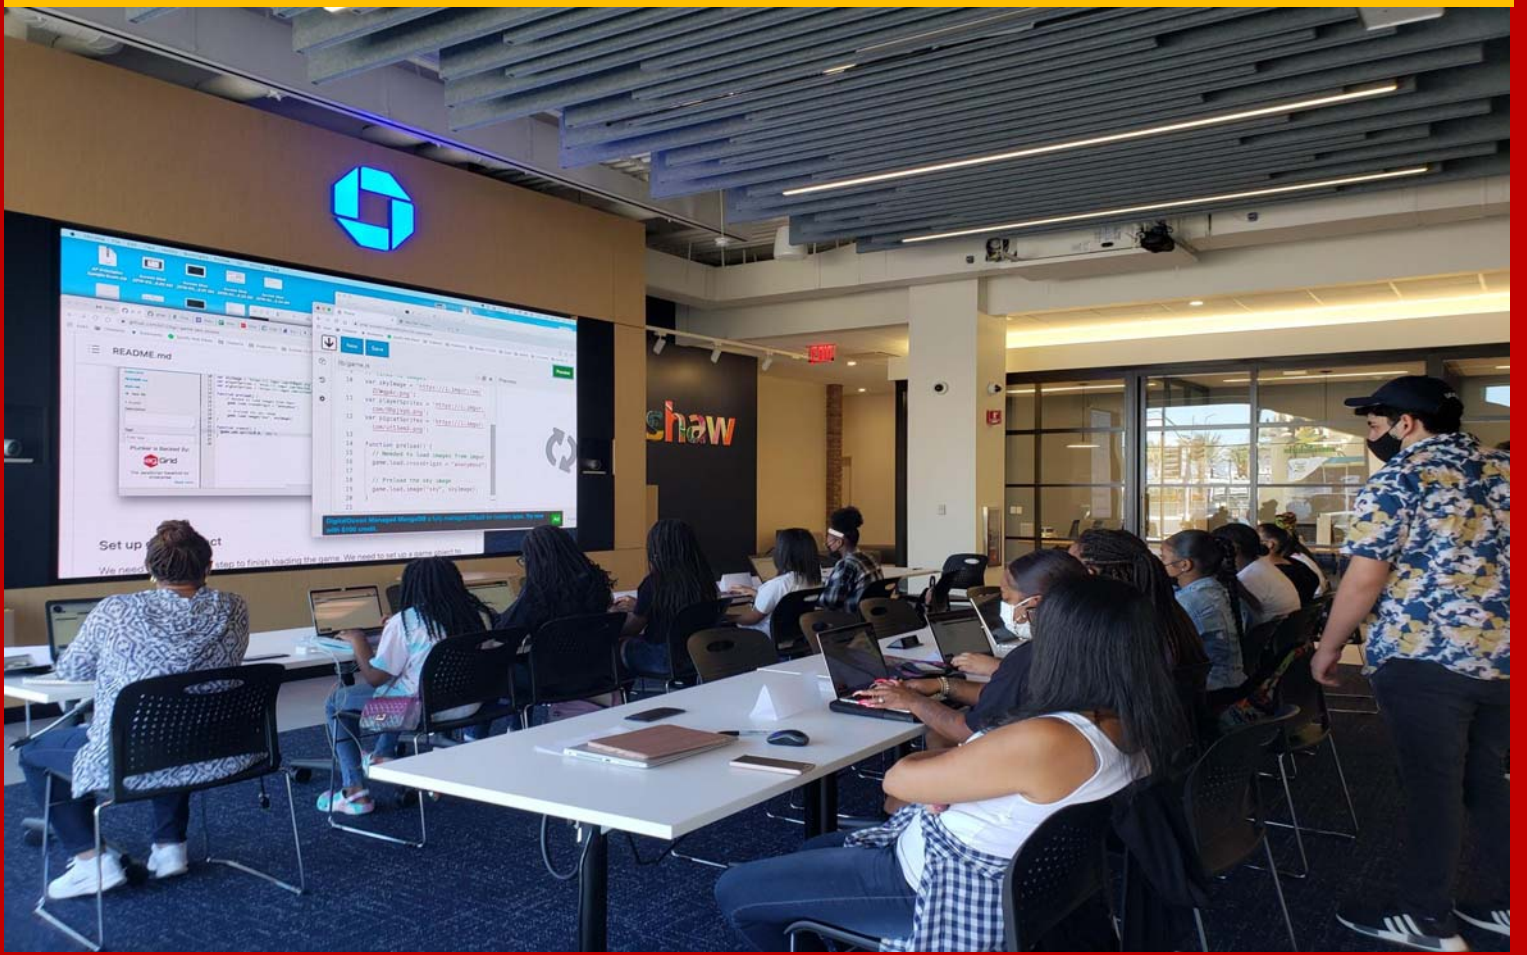

S.T.E.M. T4Technology—CODING Workshop

Girls who code are on a mission to close the gender gap in technology and to change the image of what a programmer looks like and does.

Empowering Girls Through Financial Literacy

Bnurd'e Inc. encourages our girls and young women to have the ability to understand how money works in this changing world, and achieving a financial foundation will help them provide for their own future. Helping girls and young women understand the difference between “wants” versus “needs” is a big part of learning about finances.

HBCU College Takeover

On September 16, 2021, BNURD'E Inc. participated in the Los Angeles Sparks Historically Black Colleges and Universities (HBCU) theme night at STAPLES Center presented by Legacy History Pride (LHP). The HBCU panel and college fair was created to honor and recognize the educational accomplishments made in the Black community and provide a sense of camaraderie and guidance, giving students a pathway to success alongside their peers and idols. The college fair consisted of representatives from Tuskegee University, Howard University, Florida A&M University, Spelman College, Morehouse College, and Grambling State University. These schools introduced aspiring college students to a taste of a college experience and the knowledge to make the right decision for themselves moving forward in their education.

Entrepreneurial-ship

Did you know that your child is a natural-born entrepreneur? Young entrepreneurs think outside the box, they're creative, and they're great at giving others inspiration to follow their dreams of becoming a Business Owner at any age. BNURD'E Inc. is committed to supporting our girls and young women who are interested in Entrepreneurial-ship which will help to increase generational wealth for Black and Brown families to thrive towards a more inclusive economy. Through this commitment, BNURD'E will provide assistance through workshops and training to help support our mentees small business dreams in our local communities.
